“Weekly volume is up...my marketing is streamlined...and I love what I do again. Every coach that I have ever had coaches from the sidelines. Having a coach that is still in the game really helps.”

–Chris Hauck, DC, Chiropractic Solutions

If you've ever wasted time and money on marketing that didn't work, this is for you

Maybe you're out there on your own...

Struggling to get new patients in the door every month.

Imagine that instead of trying to create a marketing campaign from scratch...

Or Googling “How to get patients”...

You have a proven monthly marketing campaign ready to go. One that's been tested by hundreds of DCs before you and is guaranteed to get new patients in the door every month.

What would it be like, to have that PROVEN marketing plan, done for you?

**Hi, I'm Dr. Stephen Franson, founder of the
Remarkable Practice.**

(Photo)

I started The Remarkable Practice because I know that building a practice on your own is hard.

My wife and I did it, but only with the help of coaches, masterminds, business courses, and events. It cost hundreds of thousands of dollars, and it took YEARS to figure out what worked for a DC practice.

However, we were able to build our practice to 1,000 patient visits per week. And we still run that practice today.

But after our experience, I didn't want to keep the success secrets to myself. I was passionate about sharing them with other DCs, so that we can all help more people with chiropractic. And so that we can all build Remarkable Practices as a part of a remarkable life!

And one thing you need to build a Remarkable Practice is a reliable and consistent stream of new patients every month.

That's where we DCs often go wrong...

We're so eager to get them to optimal health, we tell them what they need. But people don't want to hear about that. They want to hear about what they WANT.

If you do not talk about what they want, you lose them. They will never call your office to make that first appointment.

So how do you talk about what they want in your ads and marketing materials? Especially when people have all different kinds of "wants"?

That's the problem that Dr. Jason Deitch and I set out to solve.

Jason is a fellow DC and the founder of AmpLIFEied, which helps chiros grow their practice through social media marketing.

Jason and I partnered together, combining his expertise on social media with the marketing system that I and hundreds of my coaching clients use.

The result is Body Signals, a 12-month done-for-you marketing program. Body Signals is mapped out according to which symptoms patients search for the most on Google and the

most popular conversations your community are having with each other on Facebook throughout the year. In other words, their *wants*.
For instance, during spring, lots of your potential new patients are Googling “allergy relief”. (Are they finding you?)
And Body Signals doesn’t just tell you WHAT to talk about in your marketing and WHEN...

It’s basically “marketing in a box”. It includes:

- ✔ Your [12-month calendar](#), intelligently organized by the symptoms patients are searching for the most on Google and are discussing on Facebook during that month
- ✔ Articles you can use for blog posts
- ✔ A PowerPoint presentation for your Workshops of the Month (workshops are how you get them in the door)
- ✔ Postcard invitations to your workshops
- ✔ Flyers to advertise your workshops
- ✔ Referral coupons for each month
- ✔ Social media posts to promote your workshops on Facebook, Twitter, LinkedIn and more!

And here’s the really powerful part...

Jason, an expert on social media for chiros, has put his expertise into creating each of these marketing assets.

That’s like hiring a seasoned social media and marketing pro to create your campaigns for you, at only a fraction of the cost.

(Plus, unlike most social media “gurus”, Jason is a DC, so he knows our industry. And he knows what really gets new patients in the door.)

And, Jason and his team at AmpLIFEied are going one step further for you...

When you join Body Signals, they will customize the marketing materials with your logo. That means that each month, all you have to do is download your folder. And all of the marketing assets you need will be there, with your logo already on them.

We know that when you see what’s inside Body Signals, you’re going to wish you had it YEARS ago.

It’s up to you, Doc.

If you need to make a change in 2018...

You have a couple of options:

One, you could go at it alone. You could test marketing strategies, map out your own campaigns, and hope you hit on a winner that brings in a few patients...

OR, you could get a done-for-you system that’s been tested by hundreds of DCs before you.

One that’s guaranteed to bring in new patients every month.

Only you can decide what to do next.

But if you’re ready to shake things up, Jason and I want to help.

And if you want to get started NOW with Body Signals, you can get in at a special discounted rate...only available for a limited time.

It’s up to you to take the first step.
